Multiple Encounters

An encounter is a face-to-face visit between a client and an IHS provider. Multiple encounters can occur on the same date of service when the services are distinct.

The following are billable revenue codes:

Multiple Encounters *Continued*

More than one OMB charge can be billed in a day if the recipient:

- has different distinct services such as going to a dentist then to an eye exam on the same day.
- goes a second time to the same facility on the same day with a different diagnosis.
- was seen for a condition and returned the same day due to condition progression.

Outpatient Services Billed on CMS-1500

Outpatient Services

Some services are not part of the OMB rate and are billed on the CMS 1500 form and reimbursed at the fee schedule rate.

- Ambulatory surgical center facility services (ASC)
- Anesthesia (professional charges)
- Targeted case management
- Hearing aids (hearing testing is reimbursed at the OMB rate)
- Physician inpatient hospital visits and surgeries
- Smoking cessation
- Telehealth charge (telemedicine)
- Transportation claims are paid at transportation rates
- Vision appliances - frames, lenses, dispensing glasses, contacts, etc. (The exam is in the OMB rate which is billed separately.)
- Pharmacy claims which are billed as a pharmacy transaction rather than the CMS 1500

Outpatient Services Continued

- Note that it is incorrect to bill **laboratory** codes, **radiology** codes, **physician** office visit codes, and **physician emergency** room codes as additional lines on the claim with the OMB revenue codes.
- Note that the **OMB** rate can be billed when the physician is supervising the RN or LPN and signs the medical record (including after a nurse provides an EPSDT screening, or reviews a radiology image taken by a technician).
